SCHEDULE FOR FALL PLANTING*

Lawn Seeding—Until October 31.

Peonies—Until October 31.

Perennials—Until November 15.

Spring Flowering Bulbs—Until November 30.

Evergreens—Until December 10.

Trees, Shrubs, Vines—October 1 to December 20.

* Average years depending on weather conditions.

FALL-SOWN GRASS SEED MAKES BEST LAWNS

Fall is the dormant period for weeds, but grass seed germinates naturally in the Fall. It roots more deeply on account of approaching winter, therefore, is more permanent. This stronger turf enables it in the spring to choke out weeds which cannot grow in competition with the started grass.

For a good lawn fertilize and seed heavily in the early Fall.

Barr's Special "Sunnyside" Grass Seed. Fine leaved, good color grasses, with Kentucky Blue in large proportion. No coarse bladed grasses of any kind, nor Clover. 1 qt. 50c; 1 lb. 55c; 5 lb. \$2.60; 10 lbs. \$4.75; 15 lbs. \$7.00; 20 lb. \$9.25; 25 lbs. \$11.25; 100 lbs. \$42.50. (Prepaid.)

Barr's "Greenmantle" Grass Seed. Will quickly produce a velvety, deep green lawn, made up largely of Kentucky Blue, but no Clover. 1 qt. 30c; 1 lb. 40c; 5 lb. \$1.90; 10 lbs. \$3.50; 15 lbs. \$5.00; 25 lbs. \$8.00; 100 lbs. \$30.00. (Prepaid.)

Barr's "Shady Side" Grass Seed. For use in shade where other grasses will not thrive. 1 qt. 55c; 1 lb. 60c; 5 lbs. \$2.75; 10 lbs. \$5.00; 15 lbs. \$7.25; 25 lbs. \$11.75; 100 lbs. \$45.00. (Prepaid.)

White Dutch Clover. $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; 1 lb. 70c; 5 lb. \$3.00. (Prepaid.)

YOU'LL HAVE A BETTER LAWN BY MULCHING IT THIS FALL

Much of the vigor and beauty of your lawn next season will depend on what you do for it in the Fall in fertilizing and mulching.

Barr's Prepared Tobacco Stems

Combining the two-fold value of Fertilizer and Mulch makes Tobacco Stems ideal for Fall application. A bag of 100 lbs. will cover 250 square feet. 100 lbs., \$1.50; 500 lbs., \$6.00; 1 ton, \$20.00.

Barr's Coarse Tobacco Dust

Barr's Coarse Tobacco Dust is composed largely of the leaf of the tobacco plant. Its fertilizing and insecticidal value is far superior to the stem portion of the leaf. 100 lbs., \$2.00; 1 ton, \$30.00.

Ground Peat Moss

Established lawns will be greatly benefited by a one-half inch covering of Ground Peat Moss in the late fall. For Evergreens and other plants, cover the ground to a depth of 2 to 4 inches in a circle around the plants, or over entire beds. \$4.00 per bale.

PLANT NOW TO ENJOY GRAND TULIP DISPLAY IN SPRING!

This Fall gives you the opportunity to have at little cost a fine planting of gorgeous Tulips to usher in the Spring season with gay splashes of color. What delights can be yours!

You'll find Barr's quality bulbs priced exceptionally low this Fall.

Varieties marked (D) dwarf; (M) medium; (T) tall.

Single Early Tulips

First of the Tulips to bloom. Widely used for formal beds and planting in gardens and borders. Give a glorious range of soft and brilliant colors in early Spring. They mature quickly and space can be used again for summer plants.

	Doz.	100
Coleur Cardinal. (M) Brilliant crimson; inside bright60	4.50
Ibis. (T) Rose, white markings; large round flower60	4.50
Keizerkroon. (T) Bright red with broad, golden yellow border70	5.50
Prince of Austria. (T) Orange-red outside; brilliant scarlet inside..	.55	4.00
Rising Sun. (T) Rich, deep yellow; large flower60	4.25

President Taft. Blood red, with blue base; very showy75	5.75
Pride of Haarlem. Old rose, enlivened with a scarlet sheen; most popular Darwin55	3.75
Rev. H. Ewbank. Vivid heliotrope, shaded lavender; best in this unusual color55	4.00
Barr's Rainbow Mixture Darwin Tulips. Includes a wide range of charming colors, representative of whole group, and varieties of uniform height for best effect.....	.50	3.50

PLANT FLORIST QUALITY BULBS

Barr's are genuine Holland Bulbs imported fresh each year—no "left-overs" from last year.

Longer cured, stronger and more mature than ordinary "store" bulbs, Barr's "Florist Quality" Bulbs will give more satisfactory bloom. The flowers are larger and show better color. You'll be delighted after planting these Bulbs in the Fall to have the joy of Spring's earliest flowers, so welcome after the cheerless days of Winter.

All-Season Tulip Group of 100 Bulbs Only \$3.25

in planning your planting arrangement.

Triumph Tulips A New Class of Giant Aristocrats

Start blooming several weeks earlier than Darwins but flowers are twice as large; remain spotless in bad weather; have strong tall stem, and continue until end of Darwin season. A new class; new colors and combinations hitherto unknown in Tulips.

	Doz.	100
Aviator. Bright, rosy red, white border, erect stems60	4.50
Castor. Dark carmine purple, large flowers60	4.25
Elizabeth Evers. Deep pink, center of petals diagonally striped silvery-pink, feathered to base; large white base and center85	6.50
Telescopium. Vivid rose, bluish-violet toward base; gigantic cup65	5.00
Ursa Minor. Deep golden yellow; an outstanding variety85	6.50

5 Each of above 5 varieties (25 Bulbs) \$1.50

Breeder Tulips

Breeder tulips bloom same time as Darwins but are characterized chiefly by rich, dark colors—browns, bronzes, blue-blacks, purples, dull gold, dark lilac, etc. More popular each year for garden planting.

	Doz.	100
Bacchus. Deep violet blue with white base. Egg-shaped, largest and best blue Breeder60	4.50
Bronze Queen. (Clio) Yellow bronze, apricot shaded60	4.25
Dom Pedro. Inside glittering mahogany with olive streaked, yellowish base; outside coffee brown, shaded maroon, sweet scented60	4.50
Louis XIV. Dark purple, with broad margin of golden-bronze; large, stately flower70	5.25
Panarama. (Fury) Brownish orange-scarlet with faint bluish down ..	.65	5.00
Prince of Orange. (Orange Beauty) Orange-scarlet with narrow orange-yellow edges, olive base streaked yellow65	4.75
Velvet King (Dreadnought). Dark royal purple with white base; attractive, immense flower80	6.50
Yellow Perfection. Light bronze yellow, edged golden yellow; green base, starred yellow60	4.50
Barr's Mixed Breeder Tulips. A choice mixture of many rare shades and colors55	3.75

Parrot Tulips

The petals of the beautiful and interesting late-flowering Parrot Tulips are curiously fringed or cut. The flowers are immense and very attractive by reason of the brilliant varied colors. Before it opens the flower resembles the neck of a parrot, hence its name.

	Doz.	100
Fantasy. (T) Salmon rose, outside marked apple-green. Fantastic-ally shaped petals, ragged edges	.65	5.00
Best Mixture. A splendid mixture of standard varieties55	3.75

Cottage Tulips (Single Late)

Cottage Tulips will bloom immediately after Darwins and in many colors not available in Darwins. Their exquisite colors and long lasting qualities make them especially valued for bedding purposes and for cut flowers.

	Doz.	100
Buff Beauty. Salmon orange, flushed cerise, with salmon edges60	4.50
Carrara. Large cup-shaped flower, pure white; yellow anthers70	5.50
Dido. Rich orange-red, shaded carmine; amber-orange edges; very exquisite60	4.50
Inglescomb Yellow. Pure yellow with yellow anthers55	4.00
Barr's Extra Fine Mixed Cottage Tulips. Large assortment of all colors. Splendid for cutting50	3.50

ALL BULBS ARE PERFECTLY CURED

Narcissus (Daffodils)

(Large, Round Bulbs Supplied)

These are among the most delightful of the early spring flowers, exquisitely beautiful either planted outdoors or grown in pots for winter blooming in doors.

They are especially desirable for naturalizing, planting among shrubbery, under the trees, or in formal beds. They bloom more abundantly and attractively each year.

The Jonquils are much prized for their fragrant flowers, and are excellent for the Rock Garden.

YELLOW TRUMPETS

	3	Doz.	100
Emperor. Large golden-yellow trumpet; deep primrose perianth25	.75	5.50

King Alfred. Large, pure golden yellow perianth and trumpet of beautiful form and deeply frilled mouth. The king of all Daffodils35	1.25	9.50
--	-----	------	------

FALL PLANTING SEASON BRINGS ADVANTAGES

It is now generally agreed by planting experts that Fall planted Evergreens, Trees, Shrubs, Peonies, Roses, etc. gain a year over spring planted stock. They start making their new roots as soon as planted.

This activity continues through much of the Winter even though the upper part of the plant is seemingly dormant. When Spring comes and sap begins again to ascend, the plants have "their feet in the ground" and are ready to go ahead making sure and vigorous growth.

That noted authority, Dr. Bailey, says, "In general it is best to set hardy plants in the Fall."

PLANTING AFTER A FREEZE

For late planting, which frequently is found necessary, put a heavy mulch of leaves or straw on planting site. This prevents freezing, or will draw out the frost already in the ground. Planting is then easy and the plants will have the opportunity of being ready to start growth as soon as Spring arrives.

PRACTICAL LANDSCAPE SERVICE

Planting suggestions for any type or style of house are yours for the asking. Write fully stating your particular desires.

WELL-FILLED, BUSHY EVERGREENS

BARR'S CHOICE EVERGREENS

-- AT NEW LOW PRICES!

A special process of root-fibre building developed in 45 years experience accounts for one of several points of superiority of Barr's "Will Grow" Evergreens. Any not coming up to our high standards of excellence have been weeded out in repeated transplantings to develop more fibrous roots, and the remaining ones offered for sale are stronger, prettier, better rooted. You get no culls.

We aim to produce well - shaped, bushy, healthy plants of maximum beauty and strong root vitality to assure a quick start in growth after being transplanted to your property. Every plant is certified by government officials as being healthy, free of disease and insect pests.

All Evergreens sold are freshly dug, balled and burlapped, as added assurance of successful growth. They have not been dug days ahead to become dried out as is the case at most road-side stands. Your plants come "fresh from the nursery." Shipments therefore can be made safely long distances by freight at low cost.

All plants are guaranteed to arrive in first class condition, with vigor to become quickly established and continue growing most favorably as beautiful specimens.

For freight or express shipment of Evergreens the cost of packing plants over 4 ft. high will be 15 per cent extra.

All quotations are made F. O. B. Nurseries and subject to prior sale. Terms, net cash.

SHADE AND ORNAMENTAL DECIDUOUS TREES

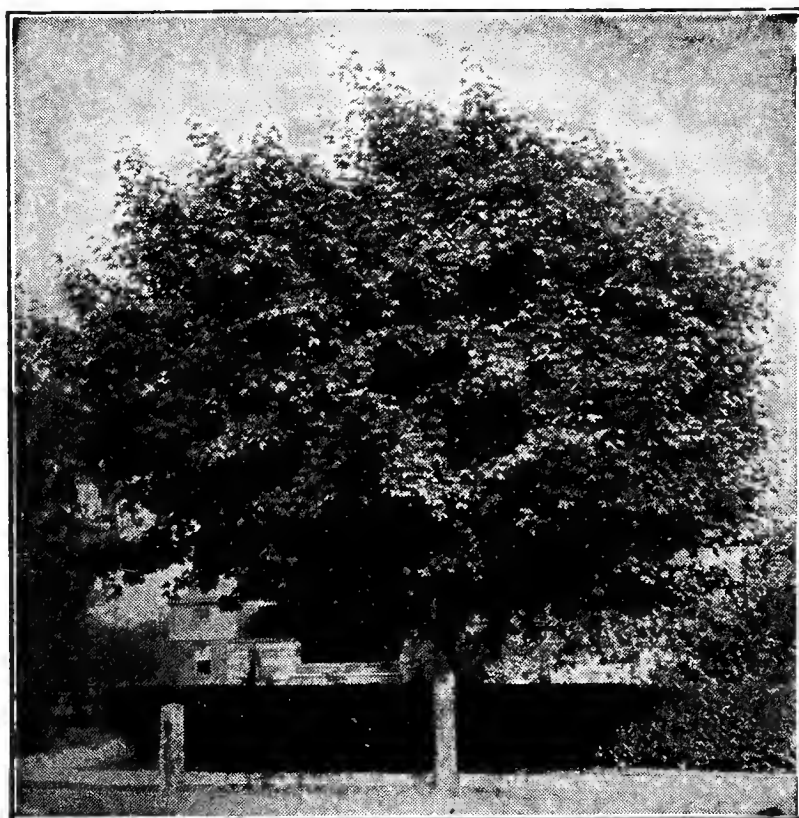

(Can be planted as late as December 20)

Does your home stand out in the bare sun, without background and unframed? Shade trees will make a wonderful transformation and give comforting shade as well.

Plant a tree—one with a future preferably. It pays to buy immediate effect—you have no waiting to realize results.

Figures following names indicate approximate height these varieties attain.

"Cal." means thickness of trunk.

To prove to you the advantages of Fall planting we offer you the above six choicest rose plants worth \$3.90 for \$3 postpaid.

TEROGEN

To get better Roses next season use Terogen this Fall. Dress the soil with Terogen just before covering your Roses for the Fall. It will destroy the spores of fungi of most diseases and larvae and eggs of pests, and also act as a valuable fertilizer. Made by the same people who manufacture Triogen, it will work wonders with your Roses. **1 lb. tins 75c; 2 lb. tins \$1.25; 5 lb. tins \$2.75; 10 lb. tins \$4.75.** 10 lb. is sufficient for 30 to 50 plants.
